On the cover: Model 403-105Z weight-loss weighfeeder is shown operating in the supplier's Moonachie, NJ, product testing and demonstration facility. Unit is shown during a performance evaluation metering a plastic regrind material into a collection vessel at full production rates. Unit's dissimilar-speed, double-concentric auger metering mechanism fills the feed auger from 360 degrees for accurate and reliable material delivery. Unit is fed via a storage hopper equipped with a bin activator and a gate valve. Courtesy of Acrison, Moonachie, NJ, 800-422-7476 (www.acrison.com).
